

“LECTURE”
(COINS Seminar #7)

2014 Advanced Materials Engineering I
"Stimuli-sensitive polymers"

You Han Bae, PhD

Department of Pharmaceutics and Pharmaceutical Chemistry
University of Utah

Date: Monday, January 5, 2015 Time: 16:40~18:20

Venue: Room #65, Engineering building #6,
The University of Tokyo

This lecture will briefly introduce the natures of stimuli (temperature, pH, and light)-responsive polymers and the representative examples of their biomedical applications.

* Cooperation: Center of Innovation (COI program)
